                             SPACE COUNTER
    3,405
                                     Description
                                             You have been given the task of making the content on a social media platform more user-friendly. Your task is to find and return an integer value
                                             representing the count of the number of spaces in a given string S.
                                             Input:
                                              A string S
   ,05405
                                              Output:
                                              Return an integer value representing the count of the number of spaces in a given string S.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            NOS'T 225
                                              Example:
                                             Input:
                                             Hello World Hey
                                              Output:
                                             2
                                                                                                                                                                                                                                                                                                                                                                                                                                                                     240540
                                                                                                                                                                                                                                         281247
                                      Source Code:
                                               def count_spaces(S):
                                                               return S.count(' ')
